## AACL POLICY DOCUMENT ON ENVIRONMENTAL AND ENERGY

### USAGE

The Environment and Energy Usage Policy of Al-Ameen College of Law demonstrates a strong commitment to environmental sustainability and responsible energy management. This comprehensive policy outlines various measures and objectives that the institution aims to implement to minimize its environmental impact and promote energy efficiency. Here are some key points and commendable aspects of the policy:

1. **Renewable Energy and Energy Efficiency:** The policy emphasizes exploring renewable energy resources and installing photovoltaic solar panels and LED bulbs to reduce energy consumption and minimize the environmental impact.
2. **Sustainable Transportation:** The policy encourages the use of environment-friendly vehicles, public transportation, and pedestrian-friendly roads to reduce emissions and local air pollution.
3. **Waste Management and Rainwater Harvesting:** The institution is committed to developing a systematic waste management mechanism and rainwater harvesting units, which contribute to resource conservation and environmental sustainability.
4. **Tree Plantation:** Undertaking tree plantation drives demonstrates the commitment to enhancing green cover and contributing to a healthier environment.
5. **Environmental Management Systems:** The institution plans to develop

and maintain environmental and energy management systems, through its ECO CLUB as per the recognized standards for environmental and energy management.

6. **Stakeholder Engagement:** The policy encourages engagement with government agencies, municipal corporations, and local organizations to actively work on environmental and energy efficiency issues, fostering collaboration for sustainable development.
7. **Education and Training:** The institution aims to enhance environmental knowledge and skills among employees and students. It offers training opportunities on energy-saving measures and encourages initiatives that contribute to environmental protection.
8. **Communication and Transparency:** The policy highlights the importance of communicating its objectives and targets to students, employees, and stakeholders through internal communication channels and the institutional website, promoting transparency and accountability.
9. **Eco Club:** The establishment of an Eco Club shows a dedicated effort to raising environmental awareness, conducting green literacy programs, and involving students and employees in environmental initiatives.
10. **Regular Review:** Regular review of the policy's objectives and targets by the Enviro Club and its Convener ensures that the institution remains committed to continuous improvement in energy consumption and environmental performance.

This policy sets a strong example for other institutions by actively addressing environmental and energy challenges and aligning with sustainability goals. It not only emphasizes responsible resource management but also fosters a culture of environmental awareness and engagement among students and employees.
