Dear Principals

Ref : No. AAES/C-6/2016-17/321 Date 27-01-2017

I have written this letter to you for informing you about the conservation of energy today people are using most of electronic equipment which is mainly leading to ' GLOBAL WARMING ' and by conserving energy cannot only safe our Planet Earth but also the various animals species. Sir, If we conserve energy now we will have a bright future.

We in addition to waste reduction and recycling, we will continue our energy conservation practices, and I would like all students and staff members to participate. Teaching staff, non-teaching staff and students about conserving natural resources also aligns with Common Core learning standards. In this ongoing effort, our teachers and Non Teaching are important role models for students. Hence follow the Energy conservation reminders.

- Turn off lights when the room is unoccupied.
- Turn off electrical Equipment – computers, monitors, interactive whiteboards, and document cameras – at the end of the day.
- Close doors that open to outside and close windows when heat is on. Close window blinds at the end of the day to keep in the heat.
- Open blinds during the day to take advantage of natural light (which benefits student learning) and heat. Colleges needs to provides energy conservation stickers and signs that will remind students and staff members to turn off lights and equipment.

Thank you for conserving natural resources and serving as a good model for our students.

Yours Sincerely

UMAR ISMAIL KHAN
CHAIRMAN.

CIRCULAR

It is observed that the Electricity is being consumed exorbitantly in both the 'A' & 'B' Campuses of Al-Ameen at Hosur Road, Bangalore-27 resulting in huge billing by the Electricity Department. As an economy measure the management has decided to curtail the electricity consumption and hence the power supply to both the campuses will be stopped between 1.00 p.m. and 2.30 p.m. everyday. The Principals are required to arrange their classes accordingly.

Further, it is also observed that lights, fans and all other electrical appliances are used even there is no necessity of it; particularly in Libraries, laboratories and various departments. HODs, faculty and other staff members are required to take interest and see that the electricity is not used unnecessarily. Switches may be kept off when there is no requirement of electricity.

Energy Conservation for You

Wondering how to write slogans about energy conservation?

Here are a few examples.

- For your better tomorrow, save energy today.
- Energy saved is Energy generated.
- Save Energy, Save Money, Save Nation, Save the planet.
- Reduce, Reuse and Recycle
- Rock your world by saving energy.
- Think. Act. Save.
- Saving energy TODAY will make TOMORROW bright
- Save power and carry on
- Don't waste your money. Practice energy efficiency.
- Know Energy Conservation, No Monetary Loss.
- Energy efficiency is a journey, not a destination.
- Turn off the light for future delight. Save Electricity.
- Save one unit a day; keep power cuts away.
- When the Sun is bright, say no to the tube light.
- Energy efficiency begins at home.
- Afraid of the future? Then conserve energy today
- Rock your world by saving energy
- Reduce, Reuse and Recycle
- Conservation: It doesn't cost; it saves
