AL-AMEEN COLLEGE OF LAW CLEAN AND GREEN CAMPUS POLICY

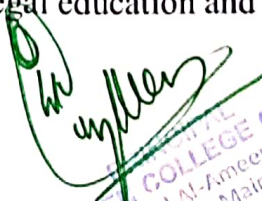

About Us:

Al-Ameen College of Law, established in 1991, is a prominent educational institution associated with Al-Ameen, an esteemed educational society known for its commitment to providing international standard education. The Al-Ameen Society was founded in 1966 under the leadership of Dr. Mumtaz Ahmed Khan and is registered under the Societies Registration Act, 1860.

The College of Law, a part of the Al-Ameen movement, aspires to serve the society and educate individuals in the field of law. It has gained a notable position among the flagship institutions of Al-Ameen and aims to be a global leader in legal education. The college's motto, "Rabbi Zidni Ilma" (Oh God Give Me More Knowledge), reflects its dedication to fostering knowledge and learning.

The primary goal of Al-Ameen College of Law is to provide high-quality legal education to aspiring law professionals. It has established partnerships and connections with various stakeholders, including government bodies, the judiciary, communities, society, industries, and the legal profession, for the mutual benefit of all parties.

Over the years, the college has achieved several milestones in the teaching and learning process. Its student body includes individuals pursuing careers in defense, leading advocates, and corporate personnel. The institution's unwavering commitment to legal education sets it apart from other law colleges in the city and the region, and it continues to be a beacon of legal education and excellence.

AACL Clean and Green Campus Policy

The AACL Clean and Green Campus Policy is driven by a clear vision, mission, and set of objectives that aim to promote environmental sustainability and consciousness within the campus community. Here's a summary of the mission and objectives:

Mission: The mission of the AACL Clean and Green Campus Policy is to create environmental consciousness among society and actively engage in activities to protect the planet Earth from the negative impacts of human actions. The ultimate goal is to ensure a sustainable, pollution-free, and healthy life for current and future generations.

Objectives:

The policy outlines several key objectives to achieve its mission:

1. **Sensitize Students and Staff:** The first objective is to raise awareness and sensitize both students and staff to the importance of minimizing the use of products and practices that contribute to pollution. Encouraging the use of environmentally friendly products and services is a key component.
2. **Promote Cleanliness:** Instilling the importance of cleanliness is crucial for maintaining a healthy life and environment. This objective encourages good hygiene practices and cleanliness on campus.
3. **Create Awareness:** The policy emphasizes the need to create awareness about environmental issues through a variety of means, including events, rallies, awareness campaigns, cleanliness drives, seminars, workshops, presentations, and more. These activities serve to educate and engage the campus community on ecological matters.
4. **Engage in Eco-Friendly Activities:** The policy encourages a range of eco-friendly activities, such as tree plantation drives, wildlife photography competitions, rangoli competitions, essay competitions, bird watching programs, excursions, study tours, guest lectures, and talks.

5. These activities provide practical experiences and learning opportunities related to the environment.
6. **Promote Environmental Advocacy:** Another important objective is to empower students and staff to raise their voices against hazardous practices that harm nature. By promoting environmental awareness and advocacy, the policy encourages individuals to be stewards of the environment and to champion eco-friendly practices in society.

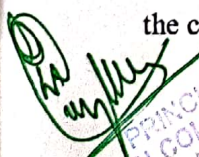

The AACL Clean and Green Campus Policy, with its mission and objectives, goes beyond the immediate campus community. It envisions a campus that serves as a model for environmental stewardship and offers an opportunity to redefine the institution's environmental culture. The establishment of an ECO Club within the institution further supports these objectives, as it likely serves as a platform for students and staff to actively participate in eco-friendly initiatives and further instill environmental ethics within the college community.

Initiatives Taken to Implement the Clean and Green Campus Policy

The initiatives taken to implement the Clean and Green Campus Policy at Al-Ameen College of Law are comprehensive and demonstrate a strong commitment to environmental sustainability and awareness. Here's a breakdown of these initiatives:

1. **Landscaping with Trees and Plants:** This initiative involves the cultivation and maintenance of green spaces on the campus, which not only enhances the campus's aesthetic appeal but also contributes to environmental conservation.
2. **Ban on Single-Use Plastic:** By banning single-use plastics, the college aims to reduce plastic waste and its detrimental impact on the environment, particularly in terms of pollution and harm to wildlife.
3. **Observance of Green Thursday:** Restricting the use of petrol and diesel vehicles on a specific day encourages sustainable transportation options, such as carpooling, cycling, or using public transportation, which helps reduce air pollution and carbon emissions.

4. **Use of LED Bulbs/Tubes and Power-Efficient Equipment:** Replacing traditional lighting with LED bulbs and using power-efficient equipment reduces energy consumption and lowers the carbon footprint.
5. **Rainwater Harvesting:** Rainwater harvesting is a sustainable method of collecting rainwater for various purposes, such as irrigation, reducing the demand on potable water sources.
6. **Paperless Office and Communication:** Promoting a paperless office and communication system reduces paper waste and encourages electronic communication and documentation.
7. **Solid Waste Management:** Effective solid waste management ensures proper disposal and recycling of waste, minimizing the environmental impact of waste materials.
8. **Water Management:** Efficient water management practices help conserve water resources and reduce water wastage.
9. **E-waste Management:** Proper e-waste management involves the responsible disposal and recycling of electronic waste to prevent environmental contamination.
10. **Display Boards to Promote Environmental Sensibility:** Display boards on the campus can be used to raise awareness about environmental issues and promote responsible behavior among students and staff.
11. **Installation of Incinerator:** The installation of an incinerator helps in proper waste disposal, particularly for non-recyclable and hazardous waste materials.
12. **Observance of Days to Protect and Nurture the Environment:** Special days dedicated to environmental awareness and action provide opportunities for the campus community to engage in environmental protection activities.
13. **The Green, Environmental, and Energy Audit:** Conducting audits helps assess and improve the institution's environmental and energy performance, identifying areas for further improvement.
14. **Dedicated Section for Environment Consciousness in a Creative Wall Magazine:** Creating a dedicated section in a wall magazine is a creative way to engage the campus community in environmental awareness and education.
